***Response to Amendment***

This Office Action is in response to applicant's communication filed February 3, 2009 in response to PTO Office Action dated November 3, 2008. The applicant's remarks and amendment to the specification and/or claims were considered with the results that follow.

Claims 1 and 3-7 have been presented for examination in this application. In response to the last Office Action, claims 1 and 3-7 have been amended.

***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "...wherein the multi-memory architecture has a pin configuration same as that of the first type memory" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for

consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 3-7 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Newly amended claim 1 recites "A multi-memory architecture comprising: a first type memory; and a second type memory; wherein the multi-memory architecture has a pin configuration same as that of the first type memory...". It is unclear from Applicant's Specification where a multi-memory architecture has a same pin configuration as one of its internal components, that of the first type memory. Paragraph 0037 indicates that in Fig. 1, the Mask ROM has the same pin configuration as the multi-memory

architecture. This is also what is now claimed. However, the (WP)' and (RESET)' signals of the multi-memory architecture are not part of the Mask ROM. Therefore it is unclear to the Examiner where in Applicant's Specification there is to be found support for the currently amended claim language.

### ***Allowable Subject Matter***

Due to the nature of the above 35 U.S.C. 112, 1st paragraph rejection noted above, it is unclear to the Examiner whether Applicant's claim language contain allowable subject matter.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
